As your Loading Equipment is one of the critical elements in your logistic process and of vital importance to site operability, we would like to draw your attention to our After Sales Services in order to maintain maximum uptime of your Loading Arms.
KANON AFTER SALES SERVICES

✔ KANON recommends regular inspection and service to maintain the high quality of your Loading Equipment.
✔ We can provide supervision, installation, inspection, maintenance, overhaul and modification for all your Loading Equipment.
✔ On-Site and Off-Site training of operators and maintenance personnel. This provides a great opportunity to gain knowledge and practical expertise about the safe operation and basic maintenance of marine loading arms. Training can be organized On-Site or at the fully equipped KANON Training Centre.
✔ Original OEM spare parts, technical advice and/or on-site inspection and maintenance.
✔ KANON skilled Service Engineers carry out inspections and regular maintenance. This ensures optimum care of all your Loading systems.
✔ KANON Service Engineers have specialist knowledge of hydraulics, pneumatics, mechanics and electronics, ensuring a highly efficient and cost effective service.

WHY YOU SHOULD CHOOSE KANON AFTER SALES SERVICES

✔ SKILLED & EXPERIENCED SERVICE ENGINEERS
✔ SUBSTANTIAL REDUCTION OF MAINTENANCE TIME
✔ REDUCTION OF UNSCHEDULED PRODUCTION STOPS
✔ ON-SITE AND OFF-SITE TRAINING
✔ 24/7 SERVICE

Regular Maintenance is essential to ensure maximum uptime.
